#### 1. Qualitative Information on Quarterly Financial Results

#### (1) Explanation of Operating Results

During the six months ended April 30, 2024, the Japanese economy experienced a temporary lull due to the decline in personal consumption caused by higher prices and the suspension of production and shipping by some automobile manufacturers, although there were signs of improvement in corporate earnings and employment conditions.

The outlook also remained uncertain due to factors such as a global credit crunch, concerns about the economic turndown overseas, primarily in China, and intensifying geopolitical risk in Europe and the Middle East.

Against this backdrop, the Kumiai Group formulated the Mid-Term Business Plan, "Create the Future— Expanding our Possibilities," which started in the fiscal year ending October 31, 2024, and is making every effort to implement priority measures designed to increase corporate value.

In the period under review, net sales decreased by ¥7,345 million (7.7%) year on year, to ¥88,100 million, as sales in the Agricultural Chemicals and Agriculture-Related Business came in lower than in the previous year. Operating profit was ¥8,830 million, down ¥3,836 million (30.3%) year on year. Ordinary profit was ¥12,990 million, down ¥513 million (3.8%) year on year, as share of profit of entities accounted for using equity method decreased despite the recording of foreign exchange gains. Profit attributable to owners of parent amounted to ¥9,322 million, down ¥923 million (9.0%) year on year. The percentage of overseas net sales was 54.7%.

Business results by segment were as follows.

Notes: 1. Consolidated segment operating profit for the six months ended April 30, 2023 includes ¥909 million in adjustments, mainly corporate expenses that are not allocated to any reportable segment (general and administrative expenses not attributable to any reportable segment).

#### 1) Agricultural Chemicals and Agriculture-Related Business segment

In the Japanese market, although sales of products for nursery boxes that contain the fungicide for paddy rice DISARTA and the herbicide for paddy rice EFFEEDA remained strong, total sales in this segment were about the same as in the same period of the previous fiscal year due in part to the discontinuation of sale of some products.

In markets outside Japan, shipments of AXEEV, a field crop herbicide, decreased due to a global inventory compression.

<sup>2.</sup> Consolidated segment operating profit for the six months ended April 30, 2024 includes ¥850 million in adjustments, mainly corporate expenses that are not allocated to any reportable segment (general and administrative expenses not attributable to any reportable segment).

As a result of the factors above, net sales in the Agricultural Chemicals and Agriculture-Related Business segment came to \(\frac{\pma}{2}\),306 million, down by \(\frac{\pma}{7}\),148 million (9.0%) compared with the same period of the previous fiscal year. Operating profit decreased by \(\frac{\pma}{4}\),288 million (33.1%) year on year to \(\frac{\pma}{8}\),667 million.

#### 2) Fine Chemicals Business segment

Sales volume of chlorotoluene derivatives decreased due to the impact of inventory adjustments by customers. On the other hand, sales volume of bismaleimides increased significantly due to a recovery in semiconductor demand. In addition, sales of expanded polystyrene and specialty chemicals were in line with the previous fiscal year.

As a result of the factors above, net sales in the Fine Chemicals Business segment came to \$11,642 million, up by \$731 million (6.7%) compared with the same period of the previous fiscal year. Operating profit increased by \$270 million (280.1%) year on year to \$367 million.

#### 3) Other Business segment

Sales in the printing business and the logistics business remained strong, but sales in the construction business decreased due to a reduction in construction work carried over from the previous year. As a result, net sales in the Other Business segment amounted to \(\frac{\pmathbf{4}}{4}\),152 million, down \(\frac{\pmathbf{9}}{28}\) million (18.3%) compared with the same period of the previous fiscal year. Operating profit increased \(\frac{\pmathbf{1}}{122}\) million (23.3%) year on year to \(\frac{\pmathbf{4}}{647}\) million, as a result of strenuous cost-cutting efforts.

#### (2) Explanation of Financial Position

Total assets on a consolidated basis as of April 30, 2024 stood at ¥273,588 million, up by ¥46,650 million from the end of the previous fiscal year. The main factors were increases in notes and accounts receivable - trade, and contract assets, merchandise and finished goods, and work in process.

Liabilities increased ¥35,846 million compared with previous fiscal year-end to ¥122,940 million. The main factors were increases in short-term borrowings and long-term borrowings.

Total net assets amounted to \\ \pm 150,648 \text{ million, an increase of \\ \pm 10,803 \text{ million compared with the end of the previous fiscal year. The increase in total net assets was mainly due to increases in retained earnings and foreign currency translation adjustment.

The equity ratio stood at 52.4%, and net assets per share were \(\frac{1}{4}\), 191.80.
